

# DATA SHEET

## ERGONOMIC CHOCK HD

### Devices

### Function

**Ergonomic Chock HD AGMOV** was developed to comply to Traffic Code, providing total safety and ergonomics during loading and unloading operations, and/or any operation involving large motor vehicles.

The HD line has chocks made from high-density polyethylene, with ART – Technical Responsibility Certificate – guaranteeing greater durability and safety. It has wheels for uneven floors to make transportation easier, and a lever that adjusts the positioning of the chocks to the most diverse wheel sizes, avoiding inappropriate positions and excessive effort.

There is a padlock box – Energy Lock – strategically fixed to its structure, which is used to insert the vehicle's key, making it impossible to start the vehicle unless the activity has been completed.

### Features

- Carbon Steel 1020;
- Synthetic rubber.

### Model /Code / Weigh

Ergonomic Chock for Tractor/ Cód: 1803 / 35 kg

### HS CODE

870899

### Product Dimensions

W: 900mm x H: 1000mm x L: 1200mm
