

DATA SHEET

GUIDING STICK ARTICULATED SMART

Devices

Function

The Smart Articulated Guiding Stick is designed for more robust operations when directing loads. With a sturdier Alloy aluminum tube, it can be used for operations such as: guiding loads, adjusting lifting devices, among others. Agmov Beacon Poles have been developed to eliminate the risk of accidents in load handling operations by taking the operator's hand out of the line of fire.

*Also use the "Vertical Handle" accessory (Code: 271), for models from 1.5 meters upwards, for even more comfort and ergonomics.

features

- Manufactured with Alloy aluminum;
- -Rubber grip;
- Electrostatic painting finishing (safety yellow)

Models

1,00m / Code: 584 / 0,295 kg
1,50m / Code: 805 / 0,462 kg
2,00m / Code: 545 / 0,598 kg
3,00m / Code: 487 / 0,963 kg
4,00m / Code: 608 / 1,219 kg
5,00m / Code: 921 / 1,514 kg

Hs Code

82055900

Product Dimensions

Tube diameter 1".
