

DATA SHEET

GUIDING- ON/OFF- CG HIGH TEMPERATURE

Devices

Function

The Agmov® High Temperature On/Off CG Guiding Stick has been developed to safely direct high temperature loads, eliminating the risk of pressures, cuts and burns during operation.

This model works with a permanent magnet resistant to 120°C made of neodymium coupled to an articulated aluminum cup and a trigger, which makes it easier to disconnect the stick from the load.

*Also use the "Vertical Handle" accessory (Code: 271), for models over 1.5 meters, for even more comfort and ergonomics.

Features

- Made of aluminum alloy;
- Neodymium permanent magnet;
- Actuating trigger;
- Rubberized glove;
- Articulated polypropylene cup;
- Finished with electrostatic paint, safety yellow color.

Models

0,50 mts / Cód.: 394 / 0,42 kg
