KNOT STICK

DEVICES

Function

The **Agmov Knot Stick** was developed to make it easier to move loads where the load has a cylindrical shape or a shape that can be looped. It eliminates the risk of limbs being pinched or cut, as the operator will be outside the load's radius of action.

*Also use the "Vertical Handle" accessory (Code: 271), for models over 1.5 meters, for even more comfort and ergonomics.

Features

- Aluminum alloy;
- Steel cable;
- Carabiner;
- Finished with electrostatic paint, safety yellow color.
