

DATA SHEET

STICK SALVADOR PUNCH STAMP

Accessories

Function

The Agmov family of Sticks Salvadores is designed to prevent operators from exposing their hands to the risk of impact. With it, the operator's hand is out of contact with the device to be impacted. The Standard model has a polyester eye and an elastic cord that hangs the piece, allowing it to hold a wide variety of tools, such as chisels, impact wrenches, socket wrenches, etc.

Features

- Permanent neodymium magnet.
- Finish in rubberized safety yellow
- Punch diameter 5/8"
