

KIT SMART HAMMER- MINI

The AGMOV Smart Hammer is a tool **developed to handle impact activities, eliminating the use of conventional sledgehammers and hammers, as well as the risks inherent to these tasks.**

It consists of a robust hand-operated piston that transmits the force generated by its displacement in the form of a robust, frontal and concentrated impact. At its lower end, where there is contact with the surface to be struck, it is possible to adapt different tips for each type of operation, such as: chisels, pin pullers, wrenches, among others.
